Rev Branding Options Overview

Rev's **Branding** menu allow you to turn your entity into a true video portal styled with your organization's logo, colors, and font preferences. You can choose different themes and designs for your landing page to ensure your portal is a true reflection of your organization's style. This style guide details the designs, colors, and formatting options that are available to you using Rev's branding features as of Rev v7.26.

Note: You must have Account Admin permissions to access Rev's Branding features.

Anatomy of the Rev Home Landing Page

The **Home** landing page is displayed when a user first logs in. Rev considers the **Home** landing page comprised of three parts:

- Header
- Featured Video Carousel
- Home Page Carousels (Default options are Recently Added Videos, Live Videos, Upcoming Events)

You can customize the **Header**, **Featured Video**, and **Home Page Carousels** branding displayed on the Home Page by choosing templates as part of Rev's **Branding** menu.

There are four tabs under Rev's **Branding** menu to assist you when branding your Rev portal; **General**, **Header**, **Featured Video**, and **Home Page**. Making selections under each tab will maximize your ability to showcase your organization's brand when setting up your Rev portal.

General Tab Options

- Logo Upload your company logo
- Colors Choose your portal's primary and secondary colors (Primary, Primary font color, Accent, Accent font color)
- Font Select a font or use the default Roboto font (.woff format only)

Header Tab Options

- Header Color Specify the Header background and font colors
- Femplate Choose a Header template (Classic, Two Tier, Modern)
- Help Links Add customized Help URLs (in addition to Vbrick's default Help) and email links

Featured Video Tab Options

- Classic Template Specify a banner background type and if auto scroll is on or off / No limits
- Poster Carousel Template Specify if auto scroll is on or off / No limits
- Files Template Limited to the first five videos in the Featured Video playlist

Customize Portal Logo, Colors, and Fonts

The **General** tab is where you upload your company logo, specify the primary and accent colors for your portal and what font you will use. Each of these attributes is described in more detail below.

Logo Format and Size

The image format you use may be in any of Rev's accepted image formats:

Jipg, .png, or .gif

LOGO IMAGE	
Choose File	
>vbrick rev	

The size of the logo depends on the template you select for the portal's Header and is based on recommended vertical size.

- Classic Maximum height recommended is 50 pixels
- **Two Tier** Maximum <u>height</u> recommended is 75 pixels
- Modern Maximum <u>height</u> recommended is 75 pixels

Colors

Use the **Colors** section to specify Primary and Accent colors for the portal and fonts. The default color of each section is demonstrated in the image below. Clicking the colored blocks reveals a color wheel to help identify colors to use.

Primar	y Color	
	#141414	Reset Default
Primar	y Font Color	
	#cbcbcb	Reset Default
Accent	t Color	
	#00a0f0	Reset Default
Accent	t Font Color	
	#fff	Reset Default

- > Primary Color Background color of all inner pages with the exception of the Header and Featured Video
- Primary Font Color The font and icon color of all inner pages with the exception of the Header
- Accent Color Taken mainly from the company's main branding color (for example, if your company's main branding is blue, the accent color will be blue)
- Accent Font Color Remaining font colors *not* on inner pages

Fonts

Use the **Fonts** section to upload a new font choice if you do not want to use the default Roboto selection. Only Web Open Font Format (.woff) uploads are accepted.

FONTS	
Choose File	
Roboto	
Font file extension should be .woff	
Font Preview	
The Quick Brown Fox Jumps Over The Lazy Dog	

Customize the Portal Header Style

The Header tab is where you may customize your portal's Header template and colors.

Header Color

The **Header Color** sections <u>only</u> apply to the portal header. Any changes made here do <u>not</u> apply to the rest of your site. Defaults are depicted in the image below.

- Header Background Color Only applicable to header background
- Header Font Color Only applicable to header fonts

eader Background Color.	
#lalala	Reset Default
leader Font Color.	
#d1d1d1	Reset Default

Header Template

You may select one of three different header templates to fit your organization's style and need. (Remember that your logo has a recommended maximum height depending upon the template you select here. See: <u>Logo Format and Size</u>

Classic – The current header template in Rev. This is the default template and will be the template used until it is changed by an admin.

Two Tier – This header is a two tiered or layered header that splits the menu options into a separate layer from the logo, search, upload, and notification icon layer. When this template is used, the next upcoming event is also displayed in the center of the header.

Modern – This header features a flyout menu dropdown on the left and places the logo in the center giving it a mobile, modern appearance.

Help Links

Use the **Help Links** section to customize your own help links or email addresses in addition to the standard Rev online help.

ustomize Default	Help Link:						
https://www.vbrick.com/help/rev/7190/			Reset Default	1			
dditional help lin	en:						
URL	* ه	Help		0	https://vbrick.com/	*	Remove
				*	No. 10 March 199	*	B

Customize the Featured Video Style

The Featured Video tab is where you may customize your portal's Featured Video template and options.

Featured Video Template

You may select one of three different Featured Video templates to fit your organization's style and themes.

Classic – The current Featured Video template in Rev. This is the default template until it is changed by an admin. There are no limits to the amount of videos that may be used in the Featured Videos Playlist when using this template. You must select the type of Banner Background to use (image or color) and if Auto Scroll of the videos is on or off when selecting this template.

Poster Carousel – This template features a full screen "poster" version of each video's thumbnail as the background along with the video title and a Watch Now button. There are no limits to the amount of videos that may be used in the Featured Videos Playlist when using this template. You must select if Auto Scroll of the videos is on or off when selecting this template.

Tiles – This template is limited to five videos in the Featured Video playlist in that only the first five are tiled and displayed on the Home landing page. If more than five are used in the playlist, <u>only</u> the first five are used. A Watch Now button and video title is also displayed on each tile.

Customize the Homepage Style

You can tailor the **Home Page** settings on your Rev portal by specifying branding options and the number of carousels that appear along with the content of each.

Up to seven carousels may be configured to appear on the **Home Page**. By default, the carousels are displayed as follows:

- Recently Added Videos
- Live Videos
- Upcoming Events
- Category
- Teams
- Continue Watching
- You may also select **None** and the carousel will not display as a result.

Homepage Template

You may select one of two **Home Page** templates to fit your organization's style and themes. Each template is described below.

Classic – This is the default template until changed by an Admin. Primary Color and Primary Font colors are automatically applied to the Home Page carousels if selected.

- Carousels With Sidebar When this Home Page carousel template is selected, you may select up to three sidebar sections in addition to your carousels. Sidebar sections appear to the right of your carousels and under your Featured Video, demonstrated in the image below. You must select at least one option.
 - Home Page Carousels: Contains all existing carousels options.
 - **Home Page Sidebar:** Contains 3 dropdowns selections: Events, Categories and Teams. You have to select at least one dropdown.

Mobile Template Options

Classic

- 1. Notification icon added to upper right side top
- 2. Theme color applied everywhere except Menu dropdown

Modern

- 1. Header Notification/Search icons added to upper right-side top
- 2. Theme colors applied everywhere including to Menu

Two-Tier

- 1. Notification icon added to upper right side top
- 2. Theme color applied everywhere except Menu dropdown

Note: Most borders use a fixed color of #909090 that may not be edited. This applies to the **Search**, **Notification**, and **Upload** tray borders.
